

Ambrose Chicken Vision Statement

For the community of Bay Point, who needs a wider choice of fresh organic food, Noah's eggs is a sustainable chicken coop system. Unlike store bought eggs that are already months old, our eggs will give the community an opportunity to see where their eggs come from, source fresh eggs, and visit chickens.

Product Roadmap

Value: As a Bay Point resident, I want to ensure that community has access to fresh food, so that community can have fresh food at community prices.

When I do This:	This Happens:	How many days to Complete Task?	Goal Timeline
